

SEVEN SUITES Hotel Observatory

A STELLAR GETAWAY

Seven Suites Hotel Observatory is the first and only hotel observatory in the Philippines.

Seven Suites offer a stunning view of the metropolis: its city lights and the dazzling night sky.

A UNIQUE STELLAR EXPERIENCE

They say that the future is in the stars. The Seven Suites Hotel has the 4th most powerful telescope in the country—trailing after PAGASA, UP NISMED, and an observatory in Baguio. The 12”diameter telescope featured at the hotel is sure to give you a treat.

Look

at the stars and the planets like you have never seen them before. Our in-house astronomer is on hand to give interesting lectures about the stellar night sky.

ROMANCE UNDER THE STARS

Arouse

the romance as you cozy up with your loved one under a brilliant view of the stars while dipping in the relaxing waters of our elevated pool or Jacuzzi. Intimacy under the vastness of the universe has never been more romantic.

CELEBRATIONS AND GATHERINGS MOST DIVINE

Corporate

functions will find our facilities perfect as we have open decks and courtyard facilities which are ideal to host your large parties as well as the really private ones.

Packages

offered: Wedding, Debut, Live-in/Live-out seminar, Astro Kiddie Party, Baptismal, Cocktail Party, Romantic Dinner Date, Shower Party.

GASTRONOMIC DELIGHTS

Housing

the Hollywood Steakhouse, as well as Sugar—a dessert bar, we assure you that the food at the Seven Suites Hotel is nothing short of delightful. Imported steaks and wonderful desserts await you at the Seven Suites Hotel.

At Seven Suites Hotel Observatory we make sure that your dining experience will be superb and unforgettable. For a more romantic dinner, one could have their dinner prepared under the stars on the roof deck by candlelight.

ASTRO KIDDIE CLUB

Awaken

your child's passion and interest with the stars and astronomy. Kids 7-13 years old are invited to join our Astro Kiddie Club. With over 50 members and counting, to date, it is fun to learn about the solar system along with kids who share the same interest. The Astro Camp held annually is an interactive way to learn about the stars and skies.
